CABLE SERVICES ACTION

September 11, 1996

ADDITIONAL INFORMATION AVAILABLE FOR PUBLIC INSPECTION ON VIACOM CABLE, INC.

Viacom Cable, Inc. ("Viacom") has forwarded to the Federal Communications Commission ("Commission") a Proposed Resolution to settle complaints filed against Viacom regarding the rates charged for cable programming service offerings. On July 31, 1996, TCI Communications, Inc. acquired the cable systems of Viacom but for these purposes we will refer to the cable operator as Viacom. At issue are 150 complaints filed against Viacom covering the period September 1, 1993, through May 14, 1994, and 54 complaints filed against Viacom for the period May 15, 1994, through December 31, 1995. Combined, these complaints involve approximately 986,000 CPST subscribers.

In the context of discussions with the Commission regarding the resolution of the issues raised by the complaints, Viacom provided the Commission with new written information. Pursuant to *47 C.F.R. § 1.1204(b)(7)*, the Commission has determined that service of this material on all parties to the proceeding would be unduly burdensome because of the number of parties involved. Thus, this notice is being issued in lieu of service for the purpose of notifying the public that copies of the new materials submitted by Viacom are included in the record of the proceedings and are available for public inspection in the Cable Services Bureau's public reference room, Room 333 at 2033 M Street, N.W., Washington, D.C.
