**Before the
Federal Communications Commission
Washington, D.C. 20554**

In the Matter of)
)
Amendment of the Commission's Rules) WT Docket No. 97-81
Regarding Multiple Address Systems)

**ERRATUM
Released: June 21, 2001**

By the Deputy Chief, Public Safety and Private Wireless Division, Wireless Telecommunications Bureau:

1. This erratum amends the Multiple Address Systems (MAS) *Memorandum Opinion and Order*, released on May 29, 2001. See Amendment of the Commission's Rules Regarding Multiple Address Systems, WT Docket No. 97-81, *Memorandum Opinion and Order*, FCC No. 01-171 (rel. May 29, 2001).

2. Paragraph 33 of the *MAS Memorandum Opinion and Order* is revised to replace "Additionally, we are making editorial amendments to Section 101.107 of our Rules to conform them with our decisions in the *MAS R&O*, thereby, clarifying the permissible frequency tolerance levels for MAS operations. Specifically, we will make appropriate changes to the frequency tolerance levels denoted in the table contained in Section 101.107(a), as well as, indicate that such levels are applicable to all (928/952/956 MHz, 928/959 MHz, 932/941 MHz) of the MAS bands. We consider these revisions to be non-substantive in nature and in the public interest as they will facilitate our efforts to address the concerns raised in the CICC petition with respect to mitigating instances of interference to MAS systems." with "Additionally, we are making editorial amendments to Section 101.107 of our Rules to conform them with our decisions in the *MAS R&O*. We consider these revisions to be non-substantive in nature and in the public interest as they clarify our intent with respect to this service."

3. Appendix B – Final Rules of the *MAS Memorandum Opinion and Order* is corrected as follows:

(a) Section 101.107(a) is amended by revising the table and revising footnotes (5) and (7) to read as follows:

§ 101.107 Frequency tolerance.

(a) * * *

Frequency (MHz)	Frequency Tolerance (percent)		
	All fixed and base stations	Mobile stations over 3 watts	Mobile stations 3 watts or less
928 to 929 (2)(5)	0.0005
932 to 932.5 (2)(5)	0.00015
* * * * *			
* * * * *			

Federal Communications Commission

(5) Used for remote stations. For remotes with 12.5 KHz bandwidth or less, the tolerance is $\pm 0.00015\%$. Remote mobiles are only allowed in the portion of the 932-932.5 MHz band that is licensed by geographic area.

* * *

(7) For private operational fixed point-to-point microwave systems, with a channel greater than or equal to 50 KHz bandwidth, $\pm 0.0005\%$; for multiple address master stations, regardless of bandwidth, $\pm 0.00015\%$; for multiple address remote stations with 12.5 KHz bandwidths or less, $\pm 0.00015\%$; for multiple address remote stations with channels greater than 12.5 KHz bandwidth, $\pm 0.0005\%$.
