Mobile and Portable Earth Stations Operating in the)	
1610-1660.5 MHz Band)	

ERRATUM

Released: May 21, 2002

By the Chief, Satellite Division:

This erratum corrects the Report and Order in this proceeding released on May 14, 2002, FCC 02-134. In Paragraph 75 of the Report and Order, the Commission said that it was adopting a suggestion to include a note in Section 25.216 of the Commission's rules cross-referencing Sections 25.202(f) and 25.213(a)(1). Instead of referring to Section 25.213(a)(1), however, the corresponding note in the rule-change appendix erroneously mentions Section 25.143(a). We are therefore amending the note to Section 25.216 to read as follows:

- NOTE: Operation of mobile earth stations is also subject to all pertinent emission limits specified in other sections of the Commission's Rules. See Sections 25.202(f) and 25.213(a)(1).

FEDERAL COMMUNICATIONS COMMISSION

Thomas S. Tycz
Chief, Satellite Division
