Amendment of Section 2.106 of the Commission's Rules to Allocate Spectrum at 2 GHz for use by the Mobile Satellite Service)	ET Docket No. 95-18
)	

ERRATUM

Released: January 19, 2005

By the Deputy Chief, Public Safety and Critical Infrastructure Division, Wireless Telecommunications Bureau:

1. On December 22, 2004, the Commission released a *Supplemental Order and Order on Reconsideration (Order)* in the above-captioned proceeding.¹ This Erratum corrects the following errors or omissions in the *Order*.

2. In footnote 140 we correct an erroneous reference to Business/Industrial Land Transportation (B/ILT) frequency coordinators. Footnote 140 should read as follows:

¹ See *Improving Public Safety Communications in the 800 MHz Band, WT Docket 02-55, Supplemental Order and Order on Reconsideration*, FCC 04-294, (Dec. 22, 2004).

¹⁴⁰ See 47 C.F.R. § 90.175. We clarify that only recognized Part 90 800 MHz public safety coordinators can coordinate frequencies in this pool.

3. In Appendix A, we resolve a conflict between the rule change adopted to Section 90.685(b)² in the *Order* and a rule change adopted to Section 90.685(b) in the Commission’s *Rural Services* proceeding³ by changing the third sentence of said rule to conform to the changes adopted in the *Rural Services* proceeding. The third sentence is corrected to state that “EA-based licensees may, in the alternative, provide substantial service to their markets within five years of the grant of their initial license.” Section 90.685(b) should read as follows:

§ 90.685 Authorization, construction and implementation of EA licenses.

(b) EA licensees in the 809–824/854–869 MHz band must, within three years of the grant of their initial license, construct and place into operation a sufficient number of base stations to provide coverage to at least one-third of the population of its EA-based service area. Further, each EA licensee must provide coverage to at least two-thirds of the population of the EA-based service area within five years of the grant of their initial license. EA-based licensees may, in the alternative, provide substantial service to their markets within five years of the grant of their initial license. Substantial service shall be defined as: “Service which is sound, favorable, and substantially above a level of mediocre service.”

4. These errors or omissions will be corrected prior to publication of the *Supplemental Order and Order on Reconsideration*, WT Docket 02-55, FCC 04-294, in the Federal Register and the FCC Record.

² 47 C.F.R. § 90.685(b).

³ See Facilitating the Provision of Spectrum-Based Services to Rural Areas and Promoting Opportunities for Rural Telephone Companies to Provide Spectrum-Based Services, WT Docket No. 02-381, 2000 Biennial Regulatory Review Spectrum Aggregation Limits for Commercial Mobile Radio Services, WT Docket No. 01-14, Increasing Flexibility to Promote Access to and the Efficient and Intensive Use of Spectrum and the Widespread Deployment of Wireless Services, and to Facilitate Capital Formation, WT Docket No. 03-202, *Report and Order and Further Notice of Proposed Rulemaking*, 19 FCC Rcd 19078 (2004). See 69 FR 75143 (Dec. 15, 2004).

Federal Communications Commission

5. This action is taken under delegated authority pursuant to Sections 0.131 and 0.331 of the Commission's Rules, 47 C.F.R. §§ 0.131, 0.331.

FEDERAL COMMUNICATIONS COMMISSION

Herbert W. Zeiler, Deputy Chief
Public Safety and Critical Infrastructure Division
Wireless Telecommunications Bureau
