ERRATUM

Released: April 28, 2005

By the Chief, Office of Engineering and Technology:

1. On March 16, 2005, the Commission released a *Report and Order and Memorandum Opinion and Order*, FCC 05-56, in the above captioned proceeding. This erratum makes the following corrections to the *Report and Order and Memorandum Opinion*:

(a) Revise Appendix A ("Final Rules") by deleting the references to "Part 26" and the "General Wireless Communications Services" in Sections 1.1307, 2.1091 and 2.1093 of the amended rules.

(b) Revise Appendix A ("Final Rules") by changing Section 90.1311 to read as follows: "The license term is ten years, beginning on the date of the initial authorization (non-exclusive nationwide license) grant. Registering fixed and base stations will not change the overall renewal period of the license."

(c) Revise Appendix A ("Final Rules") by deleting in the last sentence of Section 90.1331(a)(1) "[website]" and replacing with "<<http://www.fcc.gov/ib/sd/3650/>>."

(d) Revise Appendix E ("List of Grandfathered FSS Earth Stations") by adding a footnote that explains the references in the column labeled "NAD." The footnote reads as follows: "NAD refers to the North American Datum in which the latitude and longitude coordinates are expressed. These are either NAD-27, NAD-83, or not specified (n/s)."

2. Accordingly, IT IS ORDERED that this Erratum IS ISSUED pursuant to Section 0.241 of the Commission's rules on delegated authority, 47 C.F.R. § 0.241, and that these corrections SHALL BE INCLUDED in the *Federal Register* prior to publication.
