## POLICY BRANCH INFORMATION

### Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

Modification

This application seeks authority for EchoStar 4 to cease operations at the 157° W.L. orbital location for a period of more than 90 days, pursuant to Section 25.161(c) of the Commission's rules, 47 C.F.R. § 25.161(c), in connection with relocation of the EchoStar 4 satellite to the 77° orbital location. This application was previously dismissed. See Memorandum Opinion and Order, DA 05-1581 (rel. June 3, 2005). On July 25, 2005 the International Bureau granted EchoStar's petition for reconsideration of that action and reinstated this application. See Memorandum Opinion and Order, DA 05-2067 (rel. June 25, 2005).

For more information on related applications, see IBFS File Nos. SAT-STA-20050321-00068, SES-MFS-20050527-00662, and SES-LFS-20050701-00852.

Pursuant to Section 25.154 of the Commission's Rules, 47 C.F.R. §25.154, petitions or comments concerning this application must be filed by August 26, 2005; Oppositions to these petitions or comments must be filed by September 5, 2005; and Replies to these Oppositions must be filed by September 10, 2005.

Special Temporary Authority

---

This application seeks to move the EchoStar 4 satellite from its licensed orbital location at 157° W.L. to the 77° W.L. orbital location, where it would be operated by QuetzSat, S. de R.L. de C.V. (QuetzSat) pursuant to a license from Mexico. This application was previously dismissed. See Memorandum Opinion and Order, DA 05-1581 (rel. June 3, 2005). On July 25, 2005 the International Bureau granted EchoStar's petition for reconsideration of that action and reinstated the request for special temporary authority (STA) insofar as it seeks authority to transfer control of EchoStar 4 satellite from EchoStar to QuetzSat. See Memorandum Opinion and Order, DA 05-2067 (rel. June 25, 2005). Pursuant to two other STAs, EchoStar 4 has already been drifted to the 77° W.L. orbital location and is currently operating at that location under U.S. authority. The reinstatement of this application is based on revised technical parameters that were submitted by EchoStar in its petition for reconsideration and supplemental materials.

For more information on related applications, see IBFS File Nos. SAT-MOD-20050513-00103, SES-MFS-20050527-00662, and SES-LFS-20050701-00852.

Pursuant to Section 25.154 of the Commission's Rules, 47 C.F.R. §25.154, petitions or comments concerning this application must be filed by August 26, 2005; Oppositions to these petitions or comments must be filed by September 5, 2005; and Replies to these Oppositions must be filed by September 10, 2005.
