Report No. SAT-00315

Friday August 19, 2005

POLICY BRANCH INFORMATION

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-STA-20050712-00145 E XM Radio Inc.
Date Filed: 07/12/2005 19:15:15:81000
Special Temporary Authority

XM Radio Inc. ("XM") requests Special Temporary Authority ("STA") to operate up to 5,000 indoor signal boosters with an Effective Isotropically Radiated Power ("EIRP") of 0.0001 watts in its licensed frequency band (2332.5-2345 MHz). XM states that the indoor boosters would provide adequate reception of XM's satellite radio service inside of stores and other establishments where satellite radio receivers are displayed or used, but where signals may be attenuated due to blockage from walls and ceilings. The STA is requested for 180 days or until the date when permanent rules become effective for the operation of Satellite Digital Audio Radio Service ("SDARS") terrestrial repeaters, whichever occurs first. This STA request is separate from XM's June 1, 2005, STA request to operate up to 5,000 in-store signal boosters in conjunction with Sirius Satellite Radio Inc. (See SAT-STA-20050601-00114).

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 202-418-2555.
