FCC PROPOSES FORFEITURE AGAINST BEHRINGER USA, INC. FOR MARKETING UNAUTHORIZED EQUIPMENT

Washington, D.C. -- The Federal Communications Commission (FCC) today proposed a \$1 million forfeiture against Behringer USA, Inc. for apparent violation of the FCC's equipment authorization rules.

The Commission concluded that Behringer apparently violated the FCC's rules by marketing in the United States at least 50 models of unauthorized digital audio devices. The rules require that these devices be tested and verified compliant with FCC technical standards prior to marketing them in the United States.

In proposing its forfeiture amount, the Commission considered that Behringer marketed the unauthorized devices for more than five years overall and for almost a year after it was on notice of the FCC's investigation, and that Behringer derived substantial financial gain from the sale of the unauthorized devices.

Action by the Commission, February 16, 2006, by Notice of Apparent Liability (FCC 06-13).
Chairman Martin, Commissioners Copps, Adelstein and Tate.
