Report No. SAT-00349

Friday March 24, 2006

POLICY BRANCH INFORMATION

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-MOD-20060306-00024 E S2357 Loral Skynet Corporation
Date Filed: 03/06/2006 14:52:43:10300
Modification

Loral Skynet Corporation has filed an application to modify condition 11 of its authorization to construct, launch, and operate the conventional and extended Ku band Telstar 11N satellite at the 37.5° W.L. orbital location. Condition 11 requires Loral to begin providing service at the 37.5 W.L. orbital location contemporaneously with the discontinuation of service of the satellite it is replacing. Loral Skynet seeks modification of this condition or a determination that Loral has met the underlying objective of the condition by ensuring continuity of service and demonstrating a commitment to the launch and operation of its authorized replacement satellite.

Loral also seeks a waiver of Sections 25.114(c), 25.114(d), 25.117(c), and 25.117(d) of the Commission's rules, which requires FCC Form 312 and Schedule S when filing a modification. Loral requests the waiver, because it is seeking a purely non-technical modification.

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 202-418-2555.
