Report No. SAT-00362

Friday May 19, 2006

POLICY BRANCH INFORMATION

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-AMD-20060505-00054 E S2651 New ICO Satellite Services G.P.
Date Filed: 05/05/2006 16:01:45:51000
Amendment

New ICO Satellite Services G.P. (ICO) filed an amendment to its pending applications (File Nos. SAT-MOD-20050926-00182 and SAT-AMD-20050927-00186) for modification of its 2 GHz mobile satellite service authorization. ICO requests authority to locate its satellite at 92.85° W.L. instead of 93° W.L. as filed. ICO states this change will simplify station keeping operations and minimize the likelihood of in-orbit collisions with other satellites. ICO also asks the Commission to defer action on its request for waiver to use C-band frequencies for limited or emergency telemetry, tracking, and command operations, pending completion of ICO's frequency coordination with other satellite operators. In addition, ICO requests a waiver of 47 C.F.R. §§ 25.116 (b) and (d). Under these Sections, applications are considered newly filed, and lose their place in the processing queue, when amended by a major amendment.

SAT-STA-20060324-00029 E S2653 EchoStar Satellite L.L.C.
Date Filed: 03/24/2006 19:50:55:36300
Special Temporary Authority

EchoStar Satellite L.L.C. (ESLLC) and EchoStar Satellite Operating Corporation (ESOC) (collectively EchoStar) request a 180-day extension of the special temporary authority (STA) currently held by ESLLC to operate a Direct Broadcast Satellite (DBS) service satellite over channels 23 and 24 at 61.5° W.L. (See File No. SAT-STA-20050926-00183.) Echostar also seeks to substitute ESOC as the holder of the STA, and to waive the customer notification requirements.

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 202-418-2555.
