"MOD" to consolidate licenses for stations E850548 (Primary), E850542 (1.2m), E850546 (2.4m) and E850545 (1.8m) onto the license for station E940457 (secondary), relocate secondary Hub. This portion of the application is incomplete since Wal-Mart's application did not include these required radiation patterns to add two (2) .74m and a .98m antennas, therefore we dismiss the application in part as defective without prejudice to refiling. We defer the remaining portion of the application. See DA 06-1056, released May 17, 2006.

"CORRECTION" also was done to correct some technical data incorporated into the license ineror per letter dated May 16, 2006.
