Report No. SAT-00385

Friday September 1, 2006

## POLICY BRANCH INFORMATION

### Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

**SAT-MOD-20060821-00090** E S2590 Satelites Mexicanos S. A. de C. V.  
Date Filed: 08/21/2006 14:48:29:42600  
Modification

Satélites Mexicanos S. A. de C. V. ("SatMex") has moved its Solidaridad 2 satellite from its current location at 113° W.L. to 114.9° W.L. and requests that its Permitted Space Station entry be modified to authorize operations within the United States from the new orbital location. The Solidaridad 2 satellite is a hybrid C- and Ku-band satellite operating in the 3700-4200 MHz (space-to-Earth), 5925-6425 MHz (Earth-to-space), 11.7-12.2 GHz (space-to-Earth), and 14.0-14.5 GHz (Earth-to-space) frequency bands. Satmex is requesting authority to provide Fixed-Satellite Services (FSS) covered by the WTO Telecom Agreement and FSS Direct-to-Home (DTH) services covered by the U.S. and Mexican Bilateral Agreement using its Solidaridad 2 satellite from the 114.9° W.L. orbital location.

Solidaridad 2 has been removed from the Permitted List -- and is not an authorized point of communication for earth stations in the United States -- pending action on this modification application.
