Next Generation Network Rollout

- **At least 99% of the U.S. population lives in counties with some form of Next Generation Network deployment**
- **Higher speed Next Generation Network (wireless broadband) technologies - EVDO and HSDPA - are available in counties containing 63% and 20% of the U.S. population, respectively**

Mobile Market Structure

Source: Federal Communications Commission. In this analysis, an operator need only be offering service in a portion of a county to be considered a competitor there.
