TELUS Corporation

Modification

TELUS Corporation (TELUS) requests, pursuant to section 63.13 of the Commission's rules, 47 C.F.R. § 63.13, that the Commission reclassify TELUS as a non-dominant carrier on the following three routes: (1) U.S.-Dominican Republic, (2) U.S.-Gibraltar, and (3) U.S.-Venezuela. (See ITC-214-20030718-00362, granted DA 03-2650, rel. Aug 14, 2003.) According to the filing, TELUS is classified as dominant on these routes under section 63.10 of the rules because, at the time it obtained its international section 214 authorization, TELUS was more than 25% owned by Verizon Communications, Inc. (Verizon) which was affiliated with foreign carriers that possessed market power on the foreign-end of these routes. TELUS states that, on December 14, 2004, Verizon divested itself of all ownership interests in TELUS and thus TELUS is no longer affiliated with any foreign carriers in the Dominican Republic, Gibraltar or Venezuela. TELUS submits that it therefore is entitled to a presumption of non-dominance in its provision of service on these three U.S. international routes.

Interested parties may file comments on or before February 23, 2007, and reply comments on or before March 2, 2007.

REMINDER:

Applicants must certify that neither the applicant nor any party to the application is subject to a denial of federal benefits by federal and/or state courts under authority granted in 21 U.S.C. § 862. See 47 C.F.R. §§ 1.2001–.2003.

An updated version of Section 63.09-.25 of the rules, and other related sections, is available at <http://www.fcc.gov/ib/pd/pf/telecomrules.html>
