Report No. SAT-00517

Friday April 25, 2008

POLICY BRANCH INFORMATION

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-MOD-20080225-00051 E S2253 PanAmSat Licensee Corp.
Date Filed: 02/25/2008 15:41:04:75300
Modification

PanAmSat Licensee Corp. requests modification of its license for its Fixed-Satellite Service Galaxy 11 space station to change the authorized orbital location from 91.0° W.L. to 32.80° E.L. Pan AmSat also seeks authority to operate Galaxy 11 in the 10.95-11.2 GHz and 13.75-14.0 GHz frequency bands, in addition to the 3700-4200 MHz, 5925-6425 MHz, 11.7-12.2 GHz, and 14.0-14.5 GHz bands for which it is currently authorized. PanAmSat indicates that it intends to operate Galaxy 11 in the 11.7-12.2 GHz band on a non-harmful interference basis to broadcasting-satellite service (BSS) operations in Region 1 (Europe/Africa). PanAmSat intends to use Galaxy 11 to provide back-up capacity for the Intelsat 802 satellite, which is operating at the 32.9° W.L. orbital location and which experienced an anomaly that has reduced available solar array power. PanAmSat requests a waiver of Section 25.114(d)(3) of the Commission's rules (requiring predicted antenna gain contour plots).

SAT-MOD-20080226-00052 E S2681 ATCONTACT COMMUNICATIONS, LLC
Date Filed: 02/26/2008 20:59:35:79300
Modification

ATCONTACT Communications, LLC requests authority to relocate its authorized satellite from its current location at 121° W.L. to the 115.2° W.L. orbital location. ATCONTACT will continue to operate in its authorized frequency bands, 28.6-29.1 GHz (uplink) and 18.8-19.3 GHz (downlink). ATCONTACT requests a waiver of 47 C.F.R. § 25.114(d)(3) (requiring predicted antenna gain contour plots).

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 202-418-2555.
