Report No. SAT-00529

Friday June 13, 2008

POLICY BRANCH INFORMATION

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-ASG-20080609-00120 E S2676 SES Americom, Inc.
Date Filed: 06/09/2008 17:31:10:29600
Assignment
Current Licensee: SES Americom, Inc.
FROM: Ses Americom, Inc.
TO: SES Satellites (Gibraltar) Limited

SES Americom, Inc. (SES Americom) requests the assignment of rights under its FCC license for the AMC-21 spacecraft, call sign S2676, to its wholly-owned subsidiary, SES Satellites (Gibraltar) Ltd (SES Gibraltar). Upon completion of the proposed transaction, AMC-21 would operate under a United Kingdom authorization issued by the Gibraltar Regulatory Authority. Accordingly, SES Americom and SES Gibraltar ask that the Commission add AMC-21 to the Permitted Space Station List, and that the Commission include Direct-to-Home services to the U.S. and certain foreign destinations as permitted services.

SAT-PPL-20080213-00039 E S2749 Horizons Satellite LLC
Date Filed: 02/13/2008 15:42:25:89600
Petition for Declaratory Ruling to be Added to the Permitted List

On February 13, 2008, Horizons Satellite LLC (Horizons) filed a notification of transfer of control. Horizons is 50 percent owned by Intelsat Corporation. The Commission recently authorized the transfer of control of various licenses and authorizations held by the subsidiaries of Intelsat to Serafina, and the Commission was notified that the transfer of control to Serafina was consummated effective February 4, 2008. Through this transaction, Serafina became the indirect 100 percent owner of Intelsat Corporation. Horizons states that it is the owner of Horizons I (call sign S2475), which is the Ku-band space station on the Galaxy 13 satellite. Horizons I operates at 127° W.L. and is licensed by Japan.

Pursuant to Section 25.137(g) of the Commission's rules, the Satellite Division seeks comments on whether the transaction affects any of the consideration made when the original operator was added to the Permitted List and allowed to enter the U.S. market.

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 202-418-2555.
