Nature of Service: Direct Broadcast Satellite Service

The Commission has previously found under the DISCO II framework that a de jure barrier exists in Canada for any U.S. satellite seeking to offer DBS and other direct-to-home services such as those involved in this application. Digital Broadband Applications Corp., Order, 18 FCC Rcd 9455 (Int'l Bur. 2003); DIRECTV Enterprises, LLC, Order and Authorization, 19 FCC Rcd 15529 (Sat. Div. Int'l Bur. 2004). The Satellite Division has determined that despite this de jure barrier to competition, EchoStar's request for market access to provide DBS in the United States from a Canadian-licensed satellite at the 72.7° W.L. orbital location provides a compelling public interest justification in that it will facilitate local-into-local service and high-definition programming with no countervailing adverse impact on competition in the U.S. market.
