**ERRATUM**

**Released: September 25, 2008**

By the General Counsel:

On September 24, 2008, the Commission released a Memorandum Opinion and Order, FCC 08-214, in the above-captioned proceeding. Paragraph 10 of the document inadvertently included a standard provision stating: “Fusion may seek judicial review of this action pursuant to 5 U.S.C. § 552(a)(4)(B).” That provision is inapplicable to this case, which involves a claim of confidentiality, the denial of which must be appealed to the United States Court of Appeals. This Erratum corrects paragraph 10 to read as follows:

“IT IS ORDERED that Fusion Telecommunications International’s application for review IS DENIED. If Fusion does not seek a judicial stay within ten (10) working days of the date of release of this decision, the records will be produced to O’Grady. See 47 C.F.R. § 0.461(i)(4).”
