This report is available for reference in the FCC's Information Center at 445 12th Street, S.W., Courtyard Level. Copies may be purchased by contacting Best Copy and Printing, Inc., Portals II, 445 12th Street S.W., Room CY-B402, Washington, D.C. 20554, telephone 800-378-3160, facsimile 202-488-5563, or via e-mail at fcc@bcpweb.com. This report can be downloaded and interactively searched on the Wireline Competition Bureau Statistical Reports Internet site located at www.fcc.gov/wcb/iatd/locator.html.

Telecommunications Provider Locator

This report lists the contact information, primary telecommunications business and service(s) offered by 6,252 telecommunications providers. The last report was released September 7, 2007.¹ The information in this report is drawn from providers' Telecommunications Reporting Worksheets (FCC Form 499-A). It can be used by customers to identify and locate telecommunications providers, by telecommunications providers to identify and locate others in the industry, and by equipment vendors to identify potential customers.

Virtually all providers of telecommunications must file FCC Form 499-A each year.² These forms are not filed with the FCC but rather with the Universal Service Administrative Company (USAC), which serves as the data collection agent. The pool of filers contained in this edition consists of companies that operated and collected revenue during 2006, as well as new companies that file the form to fulfill the Commission's registration requirement.³ Information from filings received by USAC after October 16, 2007, and from filings that were incomplete has been excluded from this report.

Although many telecommunications providers offer an extensive menu of services, each filer is asked on Line 105 of FCC Form 499-A to select the five categories that best describe its telecommunications business. **Table 1** lists the categories from which the filer can choose and the number of filers that selected each. In some cases, filer selections were changed based on supplemental information.

Within each category, Table 1 also notes how many filers can be characterized as "local / long distance" providers. We recognize that as providers increasingly are engaged in multiple lines of business, characterizing them as entities that provide one type of service may not fully reflect the nature of their business activities. We have identified filers that on a holding company level of aggregation provided substantial amounts of wireline local and long distance telephony. Holding companies were classified as local / long distance if each of these revenue categories represented more than 10% of their total end-user telecommunications billings, or if they reported at least \$50 million in end-user revenue in each category. Wireless telecommunications providers, on the other hand, were included in the local / long distance category if, at the holding-company level, at

¹ Industry Analysis and Technology Division, Wireline Competition Bureau, Federal Communications Commission, *Telecommunications Provider Locator* (rel. September 7, 2007).

² There are certain exceptions. Providers that offer telecommunications for a fee exclusively on a non-common carrier basis are not required to file if their total annual contribution to universal service would be less than \$10,000. Government entities that purchase telecommunications services in bulk on their own behalf, public safety and local government entities licensed under Subpart B of Part 90 of the Commission's rules, entities providing interstate telecommunications exclusively to government or public safety entities, broadcasters and various non-profit entities are not required to file. Finally, systems integrators that derive less than 5% of their systems integration revenue from the resale of telecommunications and entities that provide services only to themselves or to commonly-owned affiliates need not file.

³ A telecommunications carrier intending to provide interstate telecommunications service can fulfill its registration requirement by filing pages 1, 2, 3, and 8 of FCC Form 499-A with the data collection agent (see 47 C.F.R. § 64.1195).

least 10% of end-user telecommunications revenue was interstate. Because of the way their revenue was reported, we were unable to determine which payphone, satellite, prepaid card and operator service affiliates fell into the local / long distance category. Note that a local / long distance designation holds no implications about the way a filer sells telecommunications services. That is, a filer categorized as a local / long distance provider may have many local-only and long distance-only customers, as well as customers taking local and long distance as a bundle.

Comparisons of the number of filers in Table 1 over time would not be meaningful due to changes to the Commission's rules regarding the filing of FCC Form 499-A. Originally, a FCC Form 499-A filing was required from each and every legal entity providing interstate telecommunications for a fee. An exception allowing consolidated filing was adopted in early 2002.⁴ It is now permissible, under certain conditions, for telecommunications providers to file summary worksheets that cover related legal entities. The current report includes 48 consolidated filings, covering 581 individual legal entities. Therefore, changes in the number of filers over time can be attributed to consolidated filing as well as other factors.⁵

Table 2 shows the number of filers that reported revenue in each of ten broad service categories. Generally, revenue is from services provided to other carriers for resale (i.e., carrier's carrier) and/or directly to end users. In each of these two broad categories, filers can derive revenue from the following specific services: local, mobile, payphone, operator services and prepaid calling cards, and/or other toll services. Since many filers report revenue from the provision of more than one service, the sum of the number of filers by service type in Table 2 is greater than the number of individual filers.

Table 2 also shows the number of filers that contribute a portion of their interstate end-user revenue to maintain universal service. Most telecommunications providers are required to contribute to the universal service fund, but there are exceptions. Section 54.706 of the Commission's rules requires all telecommunications carriers providing interstate telecommunications services, providers of interstate telecommunications that offer interstate telecommunications for a fee on a non-common carrier basis, and payphone providers that are aggregators to contribute to universal service. The primary reason that only 2,727 of the 6,252 filers actually contribute to the universal service fund is that no contribution is required if a filer's

⁴ See *Federal-State Joint Board on Universal Service, 1998 Biennial Regulatory Review – Streamlined Contributor Reporting Requirements Associated with Administration of Telecommunications Relay Service, North American Numbering Plan, Local Number Portability, and Universal Service Support Mechanisms, Telecommunications Services for Individuals with Hearing and Speech Disabilities, and the Americans with Disabilities Act of 1990, Administration of the North American Numbering Plan and North American Numbering Plan Cost Recovery Contribution Factor and Fund Size, Number Resource Optimization, Telephone Number Portability, Truth-in-Billing and Billing Format*, CC Docket Nos. 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170, Further Notice of Proposed Rulemaking and Report and Order, 17 FCC Rcd 3752 (rel. Feb. 26, 2002).

⁵ The numbers of local and toll service providers reporting revenue on FCC Form 499-A are tracked over time in Tables 8.7 and 9.4, respectively, of the most recent *Trends in Telephone Service* report (*Trends*) (rel. August 28, 2008). It is vital to note that the numbers of providers shown in Table 1 of this report **will not match** the numbers reported in *Trends*. In addition to current providers, this report includes the contact information of new providers that filed FCC Form 499-A anytime to fulfill their registration requirement (see 47 C.F.R. § 64.1195). Since these new providers generally have no revenue to report, they are excluded from the tabulations reported in *Trends*.

total annual contribution would be less than \$10,000. While many telecommunications providers do not contribute to universal service for this reason, they are generally required to support numbering administration, local number portability, and telecommunications relay services.⁶

In addition, Table 2 indicates whether filers are active or inactive. Again, the universe of FCC Form 499-A filers includes not only those entities that provided telecommunications during the year 2006, but also new companies fulfilling their registration requirement.⁷ Of those filers that declared some revenue in 2006, those not known to have merged, declared bankruptcy, or ceased operation for some other reason by October 16, 2007 are listed as active. Newly registered filers are also listed as active, although they generally have no revenue to report.

Table 3 lists 6,252 FCC Form 499-A filers alphabetically by legal name. For each filer, Table 3 shows contact information including legal name, address of corporate headquarters, telephone number for customer inquiries, principal communications business, and holding company.⁸ This table also shows for each filer the specific services from which they derive revenue: local, mobile, payphone, operator services and prepaid calling cards, and/or other toll services. It is important to note that some revenue flags in Table 3 have been suppressed to maintain confidentiality. For this reason, the sum of the flags in Table 3 may not equal the totals presented in Table 2. Finally, the table shows whether a filer currently contributes to the universal service support mechanism and whether the filer was active as of October 16, 2007.

Table 3 is available in Microsoft Excel 2003 format from the Wireline Competition Bureau Statistical Reports Internet site, www.fcc.gov/wcb/iatd/locator.html. This website also contains a link to an interactive online tool that can be used to search the public data from FCC Form 499-A filings.

Note that the information in Table 3 reflects the information reported by filers, with some revisions made by the FCC Form 499-A data collection agent and by FCC staff. Please contact the data collection agent at (888) 641-8722 or Form499@universalservice.org to suggest corrections or to identify telecommunications providers that neglected to file.

⁶ Contributions to North American Numbering Plan Administration (NANPA), Local Number Portability (LNP), and Telecommunications Relay Service (TRS) are required regardless of the expected annual amount. There is no *de minimis* exemption. Note also that NANPA, LNP, and TRS each draw contributions from a larger pool of providers than does universal service. Specifically, all telecommunications carriers in the United States must contribute to meet the costs of NANPA (47 C.F.R. § 52.17), and all telecommunications carriers that provide service in areas covered by the regional LNP database must contribute to meet the costs of LNP (47 C.F.R. § 52.32). Thus, only those providers that are not carriers are not required to contribute. Cost recovery for TRS is slightly different. Every carrier providing interstate services must contribute to the TRS Fund (47 C.F.R. § 64.604(c)(5)(iii)(A)). In this case, providers that are not carriers, and carriers that do not provide interstate services are not required to contribute. See Figure 3 of the *Instructions to the Telecommunications Reporting Worksheet, FCC Form 499-A* for more details.

⁷ A telecommunications carrier intending to provide interstate telecommunications service can fulfill its registration requirement by filing pages 1, 2, 3, and 8 of FCC Form 499-A with the data collection agent (see 47 C.F.R. § 64.1195).

⁸ The telephone number listed may not always be the filer's customer contact number. If the customer contact number was missing or incorrect, it was replaced by the number of the regulatory contact or the agent for service of process.

Table 1
Telecommunications Providers by Type of Filer ¹

Type of Filer	Number of Filers	
	Total	Local/ Long Distance ²
Incumbent Local Exchange Carriers (ILECs)	1,311	394
Competitive Access Providers (CAPs) and Competitive Local Exchange Carriers (CLECs)	1,270	143
Local Resellers	195	12
Shared Tenant Service Providers	19	0
Other Local Exchange Carriers	64	6
Total: All Competitors of ILECs	1,548	161
Total: Fixed Local Service Providers	2,859	555
Payphone Service Providers	579	27
Private Service Providers	129	4
Wireless Telephony Including Cellular, Personal Communications Service (PCS) and Specialized Mobile Radio (SMR) Telephony Carriers	470	411
Paging & Messaging Service	312	-
Specialized Mobile Radio (SMR) Dispatch	178	-
Wireless Data Service Providers	58	-
Other Mobile Service Providers	23	-
Total: Wireless Service Providers	1,041	411
Interexchange Carriers (IXCs)	364	36
Operator Service Providers (OSPs)	27	-
Prepaid Calling Card Providers	158	-
Satellite Service Carriers	41	-
Toll Resellers	925	98
Other Toll Carriers	129	4
Total: Toll Service Providers	1,644	138
Total ³	6,252	1,135

¹ This table represents a summary of the principal communications business types selected by filers on Line 105 of FCC Form 499-A. Each filer is instructed to choose and rank by importance up to five telecommunications activities that best characterize the business of the reporting entity. For simplicity, each filer is categorized based on their most important telecommunications activity.

² On the 2006 FCC Form 499-A, filers could select *all distance* as a principal communications business. Because only a small number of filers did so (and because *all distance* has since been eliminated as a category), we chose to employ our previously established revenue-based method (described below) to better establish the number of filers that, on a holding company level of aggregation, provided substantial amounts of both wireline local and long distance telephony. Based on our standard methodology, we reclassified these filers and placed each in the appropriate communications business category. In addition, we expanded the revenue-based method previously established to designate *local / long distance* providers to include wireless providers. Applying this method resulted in 411 wireless and 555 wireline all-distance providers.

Holding companies were classified as local / long distance providers if each of these revenue categories represented more than 10% of their total end-user telecommunications billings, or if they reported at least \$50 million of end-user revenue in each category. Wireless telecommunications providers, on the other hand, were included in the local / long distance category if, at the holding company level, at least 10% of end-user telecommunications revenue was interstate. Because of the way their revenue was reported, we were unable to determine which payphone, satellite, prepaid card and operator service affiliates fell into this category. Note that filers are designated local / long distance based purely on reported revenue rather than on the way telecommunications services are sold. That is, a local / long distance provider may have many local-only and long distance-only customers, as well as customers taking local and long distance as a bundle.

³ The universe of FCC Form 499-A filers includes not only those entities that provided telecommunications during the year 2006, but also new companies fulfilling their registration requirement. Of those filers that declared some revenue in 2006, those not known to have merged, declared bankruptcy, or ceased operation for some other reason by October 16, 2007 are listed as active. Newly registered filers are also listed as active, although they generally have no revenue to report.

Table 2
Telecommunications Providers by Types of Services Reported

Types of Services Reported	Number of Filers
Services Provided as Carrier's Carrier	
Local	2,039
Mobile	446
Payphone	708
Operator Service	114
Other Toll	803
Services Provided to End Users	
Local	2,579
Mobile	1,094
Payphone	1,031
Operator Service and Prepaid Calling Card	725
Other Toll	2,609
Universal Service Contributor	2,727
Active	6,015
Total ¹	6,252

¹ The universe of FCC Form 499-A filers includes not only those entities that provided telecommunications during the year 2006, but also new companies fulfilling their registration requirement. Of those filers that declared some revenue in 2006, those not known to have merged, declared bankruptcy, or ceased operation for some other reason by October 16, 2007 are listed as active. Newly registered filers are also listed as active, although they generally have no revenue to report.
