Annual Status Report for Satellite Digital Audio Radio Service Licensee

Chief, International Bureau:

Pursuant to Section 25.144(c) of the Commission's Rules, Sirius Satellite Radio Inc. and its subsidiary Satellite CD Radio, Inc. (collectively "Sirius") submit this letter to satisfy the annual status reporting requirements for its satellite digital audio radio service ("satellite radio") system.¹

Status Of Space Station Construction And Anticipated Launch Dates, Including Any Major Problems Or Delays Encountered (47 C.F.R. § 25.144(c)(1))

Sirius has completed construction and launched all three of its licensed non-geostationary space stations. Sirius obtained a license to launch and operate the geostationary FM-5 space station at 96° W.L. on April 16, 2007. Construction of this satellite should be complete in 2009. On May 21, 2008, Sirius filed a pending application to modify its non-geostationary space station authorization to allow the launch and operation of the non-geostationary FM-6 satellite. Sirius' binding contract with Space Systems/Loral for the construction of FM-6 anticipates completion of construction in 2010.

A Listing Of Any Non-Scheduled Space Station Outages For More Than Thirty Minutes And The Cause(s) Of Such Outages (47 C.F.R. § 25.144(c)(2))

Sirius has not experienced any non-scheduled outages for more than thirty (30) minutes.

¹ 47 C.F.R. § 25.144(c).

Chief, International Bureau
June 26, 2008

Identification Of Any Space Station Not Available For Service Or Otherwise Not Performing To Specifications, The Cause(s) Of These Difficulties And The Date Any Space Station Was Taken Out Of Service Or The Malfunction Identified (47 C.F.R. § 25.144(c)(3))

Sirius has not had to take any of its planned space stations out of service and has not experienced any unavailability of service or performance not in accordance with specifications.

If there are any questions concerning this report, please do not hesitate to contact the undersigned

Sincerely,

SIRIUS SATELLITE RADIO INC.
