Re: Annual Satellite Report of DISH Operating L.L.C.

Dear Ms. Dortch:

On behalf of DISH Operating L.L.C. ("DISH"), I am enclosing DISH's annual satellite report. Please call me if you have any questions regarding this submission.

Sincerely,

Pantelis Michalopoulos /y.a.

Pantelis Michalopoulos
Counsel for DISH Operating L.L.C.

cc:
FCC Columbia Operations Center
Mindel De La Torre, Chief, International Bureau

ANNUAL REPORT OF
DISH OPERATING L.L.C

Pursuant to 47 C.F.R. §§ 25.137(d) and 25.210(l), DISH Operating L.L.C. (“DISH”) files this annual report.

DISH holds a blanket earth station authorization to provide Ku-band DTH service from the Canadian-licensed Anik F3 satellite, operated by Telesat Canada, at 118.7° W.L. That satellite was launched successfully from the Baikonur Cosmodrome in Kazakhstan on April 10, 2007 following an approximate 10 month delay from the originally planned launch date due to a Proton launch vehicle failure in 2006. The satellite commenced regular operations from its authorized orbital location at 118.7° W.L. on April 30, 2007, and continues to operate at that nominal orbital location. DISH has leased all 32 Ku-band transponders on the Anik F3 satellite for DTH service. There have been no Ku-band transponder outages or failures on Anik F3.
