

FEDERAL COMMUNICATIONS COMMISSION  
WASHINGTON

OFFICE OF  
THE CHAIRMAN

October 13, 2010

The Honorable Mike McIntyre  
U.S. House of Representatives  
2437 Rayburn House Office Building  
Washington, D.C. 20515

Dear Congressman McIntyre:

Thank you for your letter expressing concern about the effect of the National Broadband Plan's (NBP) proposed universalization level of 4 Mbps on rural America. The NBP called for a Connect America Fund to enable all U.S. households to access a network that is capable of providing both high-quality voice-grade service and broadband that satisfies the National Broadband Availability Target. Recently, the Commission's Omnibus Broadband Initiative (OBI) staff released a technical paper addressing the Target speed, which I am enclosing for your review. The OBI paper details the reasons for the 4 Mbps level and notes the importance of periodic adjustments as the data supporting the Target continues to evolve.

The 4 Mbps speed is very aggressive and represents one of the highest levels in the world today for universalization, while the NBP's 100 Mbps number is based on a long-range goal. Few residential customers today subscribe to 100 Mbps service, and 4 Mbps currently is the median speed purchased by consumers. Only 6 percent of consumers subscribe to broadband service that is faster than 10 Mbps. Broadband service at 4 Mbps permits consumers to utilize its full benefits, including web browsing, e-mail, two-way video conferencing, and watching educational lectures online in standard definition. The Target speed also is "reasonably comparable" to the broadband service currently provided in urban areas, which is the standard mandated under Section 254 of the Communications Act for universalization. Cost is also a factor that needs to be considered – subsidizing universal 100 Mbps deployment today could cost as much as \$320 billion, which could increase the size of the fund to \$40-50 billion annually, and lead to a universal service fee, on average, of \$30 per month per American household.

Be assured that I am committed to making broadband affordable and attainable by all Americans, regardless of where they live or which service providers they use. I look forward to working with you and other Members of Congress as the Commission transforms its universal service policies to ensure that there will be no digital divide in our nation. Please do not hesitate to contact me if I can be of further assistance.

Sincerely,

Julius Genachowski

Enclosure
