POLICY BRANCH INFORMATION

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

Petition for Declaratory Ruling to be Added to the Permitted List

Telesat Brasil Capacidade de Satelites Ltda. has filed a petition for declaratory ruling seeking to access the U.S. market by adding the Estrela do Sul 2 Ku-band geostationary satellite orbit, fixed-satellite service space station to the Commission's Permitted Space Station List. The Estrela do Sul 2 space station is to be located at the 63° W.L. orbital location and is licensed under the laws of Brazil. Telesat Brasil seeks to access the U.S. market using the 14.0-14.5 GHz (Earth-to-space) and 11.7-12.2 GHz (space-to-Earth) frequency bands. Telesat Brasil intends to operate the space station as a replacement for the Estrela do Sul 1 space station, which is on the Permitted Space Station List at the 63° W.L. orbital location in the same frequency bands.
