Report No. SAT-00781

Friday May 27, 2011

POLICY BRANCH INFORMATION

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-MOD-20110428-00081 E S2396 Intelsat License LLC
Date Filed: 04/28/2011 11:18:13:66600
Modification

Intelsat License LLC (formerly Intelsat North America LLC) requests to modify the authorization for its Intelsat 709 space station in order to relocate Intelsat 709 from the 54.85° E.L. orbital location to the 72.1° E.L. orbital location. Intelsat proposes to provide fixed-satellite service at 72.1° E.L. in the 3700-4200 MHz (space-to-Earth), 5925-6425 MHz (Earth-to-space), 10950-11200 MHz (space-to-Earth), 11450-11700 MHz (space-to-Earth), 12500-12750 MHz (Earth-to-space), and 14000-14500 MHz (Earth-to-space) frequency bands. Intelsat also proposes to operate the following telemetry, tracking, and telecommand frequencies to maintain Intelsat 709 at the 72.1° E.L. orbital location: 3947.5 MHz, 3948.0 MHz, 3952.5 MHz, and 3952.0 MHz (space-to-Earth), as well as 6173.7 MHz and 6176.3 MHz (Earth-to-space). Intelsat proposes to operate a beacon signal at 11701 MHz, but does not otherwise seek to use the 11700-11950 MHz frequency band, although Intelsat 709 has the capability to transmit in these frequencies. Intelsat seeks waivers of Sections 25.202(g), 5.210(a)(1), 25.210(a)(3), 25.210(i)(1), and 25.211(a) of the Commission's rules in connection with its request.

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 202-418-2555.
