Report No. SAT-00786

Friday June 17, 2011

Policy Branch Information

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-MOD-20110525-00099 E S2812 Satellite CD Radio, Inc.
Date Filed: 05/25/2011 14:57:15:66600
Modification

Satellite CD Radio, Inc. requests authority to modify the authorization for its FM-6 space station in order to operate FM-6 at the 116.15° W.L. orbital location, rather than at the currently licensed 115.20° W.L. orbital location. In addition, Sirius XM requests authority to conduct in-orbit testing of the FM-6 satellite at the 120.50° W.L. orbital location for a thirty-day period commencing twelve days following launch and, upon completion of that testing, to move the FM-6 space station from 120.50° W.L. to 116.15° W.L.

SAT-STA-20110601-00101 E Sirius XM Radio Inc.
Date Filed: 06/01/2011 15:31:45:15000
Special Temporary Authority

Sirius XM Radio Inc. requests special temporary authority, for a period of 180 days, to continue to operate Satellite Digital Audio Radio Service (SDARS) terrestrial repeaters at various locations throughout the United States. These repeaters were previously authorized to operate under multiple separate grants of special temporary authority, as listed in Sirius XM Radio's application. Sirius XM Radio does not seek to change the previously authorized technical parameters of the repeaters. Each repeater will operate with an effective isotropically radiated power of less than 12000 watts (average). These repeaters will operate in the 2320-2345 MHz frequency band allocated exclusively to the use of SDARS.

SAT-STA-20110601-00102 E XM Radio Inc.
Date Filed: 06/01/2011 15:36:44:31600
