CONNECT AMERICA FUND PHASE I

File Format for Deployment Location Information for Incremental Support

Carriers accepting Connect America Fund Phase I incremental support are required to deploy broadband to a specified number of locations, the number depending on how much of the carrier's eligible funding it accepts. Carriers accepting funding are further required to identify the locations to which they will deploy, no later than one year after the date they accept funding. Carriers should provide the following information for each location, in electronic format. Specifically, carriers should submit a .csv file (comma separated values file) detailing, for each location to be deployed to in satisfaction of their deployment requirement, the information described below.

Record Format for Phase I Incremental Support Location Information

Field Name	Description	Type	Example
GEOID10	2010 Census Block FIPS code of the location	Text	"511650120001030"
