July 2, 2012

JULIUS GENACHOWSKI  
CHAIRMAN

The Honorable Duncan Hunter  
U.S. House of Representatives  
223 Cannon House Office Building  
Washington, D.C. 20515

Dear Congressman Hunter:

Thank you for your letter regarding the San Diego Unified School District's participation in the Commission's Learning on the Go Pilot Program. I appreciate your bringing this matter to my attention and have directed the Chief of the Wireline Competition Bureau's Telecommunications Access Policy Division to respond. I am pleased to provide the enclosed letter addressing your concerns.

If you have any additional questions or need any further assistance, please do not hesitate to contact me.

Sincerely,

A handwritten signature in dark ink, consisting of a large, sweeping initial 'J' followed by a long horizontal stroke that tapers to the right.

Julius Genachowski

The Honorable Duncan Hunter  
U. S. House of Representatives  
223 Cannon House Office Building  
Washington, DC 20515

Dear Congressman Hunter:

Thank you for your March 27, 2012 letter expressing support for a proposal by the San Diego Unified School District (San Diego USD). San Diego USD is a participant in the Commission's Learning On-The-Go (LOTG) (also known as the E-rate Deployed Ubiquitously 2011) Pilot Program. Specifically, San Diego USD proposes that the Commission extend the LOTG Pilot Program for an additional year.

In the *Schools and Libraries Sixth Report and Order*, released in September 2010, the Commission launched the pilot program in order to investigate the merits and challenges of wireless off-premises connectivity services for mobile learning devices, and to help the Commission determine whether and how those services should ultimately be eligible for E-rate support. In March 2011, the Wireline Competition Bureau (Bureau) announced the 20 selected pilot program participants, followed by additional guidance in July 2011 for selected participants, including reporting requirements.

Subsequently, in February 2012, the Bureau, recognizing that certain pilot participants did not begin their pilot until after the school year started, released an order extending certain deadlines for participants that had not begun their projects prior to October 1, 2011. The Bureau thus granted these participants a limited waiver of the June 30, 2012 service delivery deadline, as well as a limited waiver of the invoicing deadline and other E-rate rules necessary to effectuate the extension, in order for these pilot participants to complete their one-year projects. The Bureau also extended the interim and final report deadlines for those pilot participants who did not begin their pilot projects before November 1, 2011 to provide additional time to gather data and prepare the reports. The Bureau, however, refrained from increasing the pilot participants' funding commitments, indicating that no evidence was received showing that the committed amounts were insufficient for projects to complete their one-year term.

Upon the conclusion of the pilot program and the submission of the final reports by the pilot participants, the Commission will review the data and information submitted by the pilot participants in order to evaluate the strengths, weaknesses, and the effectiveness of the LOTG pilot program, to inform the decision regarding whether to make off-premise wireless services eligible for support under the E-rate program.

Commission staff has also informally discussed the project status with the pilot participants during the course of the pilot program. Most recently, in January 2012, in order to interface with pilot participants and provide additional support, several Commission staff attended and participated in the LOTG Summit in San Diego, California, which was attended by 14 of the 20 pilot participants, including San Diego USD.

Thank you again for your interest in this important matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "T. B. Harkrader", with a long horizontal flourish extending to the right.

Trent B. Harkrader  
Chief  
Telecommunications Access Policy Division  
Wireline Competition Bureau
