Section 214 Applications (47 C.F.R. § 63.18); Section 310(B)(4) Requests

Unless otherwise specified, the following procedures apply to the applications listed below:

The international Section 214 applications listed below have been found, upon initial review, to be acceptable for filing and subject to the streamlined processing procedures set forth in Section 63.12 of the Commission's rules, 47 C.F.R. § 63.12. These applications are for authority under Section 214 of the Communications Act, 47 U.S.C. § 214, (a) to transfer control of an authorized carrier or to assign a carrier's existing authorization; and/or (b) to become a facilities-based international common carrier; and/or (c) to become a resale-based international common carrier.

Pursuant to Section 63.12 of the rules, these Section 214 applications will be granted 14 days after the date of this public notice (see 47 C.F.R. § 1.4 regarding computation of time), and the applicant may commence operations on the 15th day, unless the Commission has informed the applicant in writing, within 14 days after the date of this public notice, that the application, on further examination, has been deemed ineligible for streamlined processing.

Communications between outside parties and Commission staff concerning these applications are permitted subject to the Commission's rules for "permit-but-disclose proceedings." See 47 C.F.R. § 1.1206. An application can be removed from streamlined processing only in the sound discretion of Commission staff. The filing of comments or a petition to deny will not necessarily result in an application being deemed ineligible for streamlined processing.

The petitions for declaratory ruling listed below are for authority under Section 310(b)(4) of the Communications Act, 47 U.S.C. § 310(b)(4), to exceed the 25 percent foreign ownership benchmark applicable to common carrier radio licensees. The requested rulings will be granted 14 days after the date of this public notice, effective the next day, unless the application is formally opposed or the Commission has informed the applicant in writing, within 14 days of the date of this public notice, that the application, on further examination, has been deemed ineligible for streamlined processing. For this purpose, a formal opposition shall be sufficient only if it is received by the Commission and by the applicant within 14 days of the date of this public notice and its caption and text make it unmistakably clear that it is intended to be a formal opposition.

Copies of all applications listed here are available for public inspection in the FCC Office of Public Affairs Reference and Information Center, located in room CY-A257 at the Portals 2 building, 445 12th Street SW, Washington DC 20554. ITC-MOD-20120718-00192 P StarHub, Inc.

Modification

StarHub, Inc. (StarHub), which holds international section 214 authorizations, ITC-214-20000731-00473 and ITC-214-20000731-00474, requests that the Commission reclassify StarHub as a non-dominant carrier on the U.S.-Ireland route, pursuant to section 63.13 of the Commission's rules, 47 C.F.R. § 63.13.

StarHub is classified as a dominant carrier on the U.S.-Ireland route, pursuant to section 63.10, 47 C.F.R. § 63.10, because Singapore Technologies Telemedia Pte Ltd (ST Telemedia), the indirect shareholder of StarHub, acquired control of eircom, a foreign carrier presumed to have market power on the foreign-end of the U.S.-Ireland route. StarHub states that effective June 11, 2012, ST Telemedia no longer owns or controls eircom. StarHub states that it therefore is no longer affiliated with eircom. Consequently Starhub submits that it should be reclassified as a non-dominant carrier on the U.S.-Ireland route.

Interested parties may file comments on or before August 24, 2012, and reply comments on or before August 31, 2012.
