Dear Senator Conrad:

Thank you for your letter urging the Commission to consider options that will allow LightSquared to offer its planned wireless broadband service, including authorizing use of alternative spectrum for this service. Your letter will be included in the record of the related proceedings and considered as part of the Commission's review.

Commission staff has continued to meet with representatives of LightSquared and is working through the complex issues of this proceeding. LightSquared recently filed a series of license modification requests and a related petition for rulemaking that seeks access to spectrum that is currently shared with the Federal Government. The Commission is in the process of coordinating this request with our counterparts at NTIA as necessary. Please be assured that the Commission will consider this matter carefully.

I appreciate your interest in this matter. Please let me know if I can be of any further assistance.

Sincerely,

A handwritten signature in blue ink, which appears to read "Mindel De La Torre", is positioned above the printed name.

Mindel De La Torre
Chief, International Bureau
