Report No. SAT-00933

Friday March 1, 2013

Policy Branch Information

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-AMD-20130212-00020 E S2103 ORBCOMM License Corp.
Date Filed: 02/12/2013 14:47:28:32300
Amendment

Orbcomm License Corp. has filed a further amendment to its application to modify its non-voice, non-geostationary mobile satellite service (Little LEO) system. See IBFS File No. SAT-MOD-20111021-00207. Orbcomm clarifies that its pending applications seek authority to add a feeder link channel centered at 150.025 MHz for use by all satellites in the Orbcomm system, including in-orbit satellites, as well as Orbcomm Generation 2 satellites that are not yet launched.

Orbcomm confirms that it will maintain the operational orbit and deployment plan proposed in its previous amendment, as well as the orbital debris mitigation statement submitted with that amendment. See IBFS File No. SAT-AMD-20120809-00125.

Orbcomm requests waivers of its fourth and fifth satellite implementation milestones, which require Orbcomm to complete construction of and launch its first two next-generation satellites by September 21, 2012, and to certify the entire Generation 2 system operational by March 21, 2014. Alternatively, in the event waivers of both milestones are not granted, Orbcomm requests a waiver of the fourth milestone, and extension of the fifth milestone deadline to December 31, 2015, or, alternatively, an extension of the fourth milestone to December 31, 2014, and an extension of the fifth milestone deadline to December 31, 2015.

SAT-STA-20130212-00019 E S2110 Iridium Constellation LLC
Date Filed: 02/12/2013 13:02:32:60000
Special Temporary Authority

Iridium Constellation LLC requests special temporary authority for a period of 180 days to continue to operate three space stations in its non-geostationary orbit constellation in a manner consistent with a revised post-mission disposal plan proposed in a pending license modification application. See IBFS File No. SAT-MOD-20080701-00140.
