Report No. SAT-00980

Friday November 15, 2013

## Policy Branch Information

### Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

**SAT-MOD-20130830-00110** E S2460 Intelsat License LLC  
Date Filed: 08/30/2013 15:07:10:54300  
Modification

Intelsat License LLC seeks to modify its authorization for the Intelsat 8 space station at the 169.0° E.L. orbital location by extending the 15-year license term for approximately three years, through June 30, 2016. Intelsat is currently authorized to operate Intelsat 8 at the 169.0° E.L. orbital location to provide Fixed-Satellite Services in the in the 3700-4200 MHz (space-to-Earth), 5925-6425 MHz (Earth-to-space), 12.25-12.75 GHz (space-to-Earth), and 14.0-14.5 GHz (space-to-Earth) frequency bands. As part of its request, Intelsat requests continued waiver of the Table of Frequency Allocations, Section 2.106, and Section 25.202(a)(1).

**SAT-RPL-20121228-00227** E S2892 SES Americom, Inc.  
Date Filed: 12/28/2012 19:11:46:26000  
Replacement Satellite Application (no new frequency)

SES Americom, Inc. requests authority to operate the SES-3 space station at the 103.0° W.L. orbital location to provide Fixed-Satellite Service (FSS) and Direct-to-Home (DTH) service in the 3700-4200 MHz (space-to-Earth), 5925-6425 MHz (Earth-to-space), 11.7-12.2 GHz (space-to-Earth), and 14.0-14.5 GHz (Earth-to-space) frequency bands. SES Americom states that SES-3 will replace the AMC-1 space station, Call Sign S2445, currently operating at 103.0° W.L. in these frequency bands. SES-3 also contains a 17/24 GHz Broadcasting-Satellite Service (BSS) payload, which is capable of operating in the 24.75-25.25 GHz (Earth-to-space) and 17.3-17.8 GHz (space-to-Earth) frequency bands. SES Americom does not seek operational authority for this 17/24 GHz BSS payload as part of this application. SES-3 seeks authority to conduct telemetry, tracking, and telecommand operations at the 103.0° W.L. orbital location using the following center frequencies: 3700.5 MHz, 4199.5 MHz, 11701.0 MHz, 12199.0 MHz (space-to-Earth); 6423.5 MHz and 14499.0 MHz (Earth-to-space). SES Americom also requests any necessary waivers of Sections 25.113(g), 25.114(d)(3), and 25.264(c)-(d) of the Commission's rules.

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 202-418-2555.
