2014 ANNUAL REPORT

Re: Annual Satellite Report of DISH Operating L.L.C. for Fixed Satellite Service Authorizations

Dear Ms. Dortch:

On behalf of DISH Operating L.L.C., I am enclosing the company's annual satellite report. Please call me if you have any questions regarding this submission.

Sincerely,

Stephanie A. Roy
Counsel for DISH Operating L.L.C.

cc: FCC Columbia Operations Center

ANNUAL REPORT OF
DISH OPERATING L.L.C

Pursuant to 47 C.F.R. §§ 25.137(d) and 25.210(l), DISH Operating L.L.C. (“DISH”) files this annual report.

DISH holds a blanket earth station authorization to provide Ku-band Direct-to-Home (“DTH”) service from the Canadian-licensed Anik F3 satellite, operated by Telesat Canada, at 118.7° W.L. (Call Sign E040344). DISH has leased all 32 Ku-band transponders on the Anik F3 satellite for DTH service. The Anik F3 satellite is on the Commission’s Permitted Space Station List.¹ On August 9, 2013, Anik F3 experienced a single event upset due to a commanding error, resulting in the DISH capacity being unavailable for one hour and 45 minutes. DISH understands that the event has no bearing on Anik F3’s capabilities or service term.

Pursuant to 47 C.F.R. § 25.113(f), DISH reported in 2013 that DISH intended to commence construction at its own risk on the EchoStar 18 satellite, a Direct Broadcast Service satellite. Construction was commenced in late 2013 by Space Systems/Loral and is expected to be complete sometime in 2015.

June 30, 2014

¹ See Telesat Canada Petition for Declaratory Ruling for Inclusion of ANIK F3 on the Permitted Space Station List, *Order*, 22 FCC Rcd. 588 (2007).
