2014 ANNUAL REPORT

Dear Ms. Dortch,

O3b Limited hereby submits the report required by Sections 25.210(l) and 25.145(f) of the Commission's rules. Part 1 of this report sets forth the status of O3b's satellite construction and launch dates. Part 2 describes non-scheduled O3b space station outages. Part 3 includes information relating to utilization of O3b's in-orbit non-geostationary satellites. Part 4 provides data regarding O3b space stations not available for service or not performing to specifications.

Please address any questions concerning this submission to the undersigned.

Respectfully submitted,

A handwritten signature in cursive script that reads "Joslyn Read".

#### PART 1: STATUS OF SATELLITE CONSTRUCTION

O3b's first four satellites were launched on 25 June 2013 into a non-geostationary orbital altitude of 8062 kilometers. O3b has completed their in-orbit testing and these satellites are operational.

The launch of O3b's second group of four non-geostationary satellites, which had been scheduled for September 30, 2013, was delayed to allow time for further testing of the spacecraft. O3b is currently scheduled to launch the second group of four satellites on July 10, 2014 on a Soyuz launch vehicle from the Arianespace launch facility in Kourou, French Guiana.

O3b's third group of four non-geostationary satellites is undergoing assembly, integration and testing at the spacecraft level at the Thales facility in Rome. [REDACTED]

#### PART 2: NON-SCHEDULED SPACE STATION OUTAGES

None.

#### PART 3: SPACE STATION UTILIZATION

Capacity on all O3b satellites is offered on a private, non-common carrier basis. Pursuant to the Commission's rules, 47 C.F.R. 25.210(l)(3), for each in-orbit spacecraft this section reports the number of transponders sold.

O3b's first four satellites are currently in orbit. The launch of O3b's second set of four satellites is currently scheduled for July 10, 2014.

O3b has sold [REDACTED] transponders [REDACTED] as of May 31, 2014.

#### PART 4: SPACE STATIONS NOT AVAILABLE FOR SERVICE

None.
