

## Format of Data

All data should be submitted in a .csv (comma-delimited) format. The sheets in the workbook provide a template for how the tables should be designed.

The required format for the entries in each column/field is indicated in the instructions for each sheet.

Column entries in **bold red** indicate that the party should enter only one of the possible entries listed for that column. No other entries should be entered.

Data for all of the tables should be submitted on a periodic basis as specified in the instructions in individual tables.

**"Availability and Subscription by delivery technology and distribution area for March 2014"**

For the month of March 2014, provide the availability and subscription data by distribution area and technology, separately for residential and other subscribers.

If multiple delivery technologies are used in a single distribution area, then multiple rows must be filled out for that distribution area, one for each delivery technology.

Column	Variable Name	Format	Possible Entries/ Example Entries	Description
A	cllida	Text	DLLSTXNM3372B	The CLLI distribution area code
B	tech	Integer	1, 2, 3, 4, 5, 6	Technology code of the service (see Tech Table for the 6 technology types)
C	residential	Integer	1, 0	Location type - enter 1 if the location is residential and 0 if other (non-residential) location
D	locs	Integer	605	Number of customer locations where the Company offers the technology
E	subs_MVPD	Integer	158	Number of subscribers to MVPD Service only as of the end of the month
F	subs_IA	Integer	210	Number of subscribers to Internet Access Service only as of the end of the month
G	subs_Tel	Integer	28	Number of subscribers to Telephony Service only as of the end of the month
H	subs_MVPD_IA	Integer	322	Number of subscribers to MVPD Service and Internet Access Service only as of the end of the month
I	subs_MVPD_Tel	Integer	56	Number of subscribers to MVPD Service and Telephony Service only as of the end of the month
J	subs_IA_Tel	Integer	98	Number of subscribers to Internet Access Services and Telephony Service only as of the end of the month
K	subs_MVPD_IA_Tel	Integer	111	Number of subscribers to MVPD Service, Internet Access Service and Telephony Service as of the end of the month

**Notes:**

**A, B, C:** Any variation in CLLI Distribution Area, Technology, or Location Type necessitates the creation of a new, unique record.

**C, E:** If any individual location can be served using multiple technologies, please record the location only under the observation with the largest technology code.

(For example, if a location can be served with both IPDSL and FTTP, include the location under the observation for technology code 6.)

## Technology Codes for Availability, Subscribers and ARPU

Technology Code	Description
1	Copper with no xDSL capability
2	xDSL
3	IPDSL
4	FTTN without capability to provide MVPD Service
5	FTTN with capability to provide MVPD Service
6	FTTP
