Report No. SAT-01053

Friday November 14, 2014

Policy Branch Information

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-LOI-20141029-00118 E S2935 O3b Limited
Date Filed: 10/29/2014 16:03:04:33000
Letter of Intent

O3b Limited requests a modification of prior grants of access to the U.S. market to add four new medium earth orbit NGSO satellites, for a total of 12 satellites in an equatorial orbit, operating under the authority of the United Kingdom. O3b was previously granted authority to operate two fixed gateway earth stations and one blanket license for maritime operations with the O3b system as a point of communication. See IBFS File Nos. SES-LIC-20100723-00952 (fixed gateway earth station in Haleiwa, Hawaii, granted Sept. 25, 2012); SES-LIC-20130124-00089 (fixed gateway earth station in Vernon, Texas, granted June 20, 2013); and SES-LIC-20130528-00455 (a blanket license for maritime operations in limited frequencies, granted May 13, 2014). The frequencies used to provide service would remain the same as those specified in the prior grants and include the 18.8-19.3 GHz (space-to-Earth) and 28.6-29.1 GHz (Earth-to-space) frequency bands on a primary basis, and the 28.35-28.4 GHz (Earth-to-space) frequency band on a secondary basis. O3b seeks continuation of a waiver of the U.S. Table of Frequency Allocations, Section 2.106 of the Commission's rules and of the Commission's Ka-band Plan to operate in the 17.8-18.3 GHz, 18.3-18.6 GHz (space-to-Earth), and 27.6-28.35 GHz (Earth-to-space) frequency bands on non-conforming basis. O3b seeks a continuation of waivers of the following Commission rules: Sections 25.145(c), 25.210(i)(1), 25.137(c), and 25.157.

SAT-STA-20141022-00112 E S2229 Intelsat License LLC
Date Filed: 10/22/2014 11:52:27:30600
Special Temporary Authority

Intelsat License LLC requests special temporary authority for a period of 180 days to operate the Intelsat 7 space station at the 18.2° W.L. orbital location to: (1) provide fixed-satellite service in the 3400-3625 MHz (space-to-Earth), 6425-6650 MHz (Earth-to-space), and 13.75-14.0 GHz (Earth-to-space) frequency bands; and (2) conduct tracking, telemetry and command operations using the following center frequencies: 13997.5 MHz and 14499.5 MHz (Earth-to-space); 12198.75 MHz (space-to-Earth).

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 202-418-2555.
