**FCC LIBRARY INVITES TECHNOLOGY MANUFACTURERS  
AND SERVICE PROVIDERS  
TO SHOWCASE THEIR TABLETS, TELEPHONES  
AND eBOOK READERS**

Washington, D.C. - FCC Library proudly celebrates National Library Week with its Annual Open House to take place on Wednesday, April 15, 2015. Once again, in partnership with the FCC Technology Experience Center, the FCC Library will showcase how local, state, federal, and academic libraries use electronic or digital content to provide 24/7 cyberspace access for a wide array of personal use devices.

The FCC Technology Experience Center, located within the FCC Library, is a communications technology repository where FCC staff and visitors have hands-on opportunities to preview communications content and devices. In recognition of National Library Week, there will be library-specific experiences for accessing content, using devices, and reviewing application solutions. In addition, there will be an electronic compilation of library websites dedicated to providing free access to local, state, and federal electronic content.

Manufacturers and vendors are invited to participate in this event. Of particular interest are smart phones, eBook readers, tablets, technology kiosks and library-specific application solutions. For consideration and further information contact Lisa Leyser, FCC Library Director, at [Lisa.Leyser@fcc.gov](mailto:Lisa.Leyser@fcc.gov) or 202-418-0450.

The provision of equipment for display and other exhibited material is strictly voluntary and is not contingent on and does not imply any expected benefit to the exhibitor. Acceptance of any exhibit by the FCC does not constitute endorsement of the device, its manufacturer, vendor, or any company offering such devices.
