Engineering Amendment filed 02/17/2015

The Informal Objection filed by Jeff Sibert on 6/25/2014 IS HEREBY DISMISSED as moot 11/5/2015 via Public Notice. No letter sent. The Objector claims that the proposed translator facility should be considered a prohibited major change compared to the original short-form proposal, and that the proposal would preclude channels from being used in the area by pending LPFM applicants looking to eliminate mutually exclusive situations. Subsequent to the filing of the Objection, the applicant has amended its application to specify a minor modification compared to its original short-form proposal. Furthermore, the application has no preclusive effect on LPFM channels because there are currently no pending LPFM applications within at least 50 miles of the transmitter site specified in the proposal.
