**NOTICE OF VIOLATION**

Released: April 7, 2016

By the Acting District Director, Los Angeles Office, Region 3, Enforcement Bureau:

1. This is a Notice of Violation (Notice) issued pursuant to Section 1.89 of the Commission's rules (Rules),<sup>1</sup> to Public Safety Technologies, Inc., licensee of radio station WQJM334 in West Covina, California. Pursuant to Section 1.89(a) of the Rules, issuance of this Notice does not preclude the Enforcement Bureau from further action if warranted, including issuing a Notice of Apparent Liability for Forfeiture for the violation(s) noted herein.<sup>2</sup>

2. On September 24, 2015, in response to a complaint of interference, an agent of the Enforcement Bureau's Los Angeles Office monitored radio station WQJM334 located on San Jose Hill in West Covina, California and observed the following violations:

- a. 47 C.F.R. § 90.403(c): "Except for stations that have been granted exclusive channels under this part and that are classified as commercial mobile radio service providers pursuant to Part 20 of this chapter, each licensee must restrict all transmissions to the minimum practical transmission time and must employ an efficient operating procedure designed to maximize the utilization of the spectrum." At the time of the investigation, the agent observed that WQJM334 was operating a station which transmitted continuously on 451.350 MHz from San Jose Hill in West Covina, California, and with Station Class "FB7" which does not authorize exclusive use of the channel.

- b. 47 C.F.R. § 90.403(e): “Licensees shall take reasonable precautions to avoid causing harmful interference. This includes monitoring the transmitting frequency for communications in progress and such other measures as may be necessary to minimize the potential for causing interference.” At the time of the investigation, the agent observed that WQJM334 was operating a station which transmitted continuously on 451.350 MHz, providing no opportunities for other users to share this frequency and causing harmful interference with another licensee in the West Covina area.
  - c. 47 C.F.R. § 90.425(a): “Except as provided for in paragraphs (d) and (e) of this section, each station or system shall be identified by the transmission of the assigned call sign during each transmission or exchange of transmissions, or once each 15 minutes (30 minutes in the Public Safety Pool) during periods of continuous operation.” At the time of the investigation, the agent monitored the WQJM334 for several hours and at no time was call sign identification heard.
- 3. Pursuant to Section 308(b) of the Communications Act of 1934, as amended,<sup>3</sup> and Section 1.89 of the Commission's Rules, we seek additional information concerning the violations and any remedial actions taken. Therefore, Public Safety Technologies, Inc., must submit a written statement concerning this matter within twenty (20) days of release of this Notice. The response (i) must fully explain each violation, including all relevant surrounding facts and circumstances, (ii) must contain a statement of the specific action(s) taken to correct each violation and preclude recurrence, and (iii) must include a time line for completion of any pending corrective action(s). The response must be complete in itself and must not be abbreviated by reference to other communications or answers to other notices.<sup>4</sup>
- 4. In accordance with Section 1.16 of the Commission's Rules, we direct Public Safety Technologies, Inc., to support its response to this Notice with an affidavit or declaration under penalty of perjury, signed and dated by an authorized officer of Public Safety Technologies, Inc., with personal knowledge of the representations provided in Public Safety Technologies, Inc., response, verifying the truth and accuracy of the information therein,<sup>5</sup> and confirming that all of
