ERRATUM

MEDIA BUREAU ACTION

THIRD QUARTER 2015 INFLATION ADJUSTMENT FIGURES FOR CABLE OPERATORS USING FCC FORM 1240 NOW AVAILABLE

On January 13, 2016, the Media Bureau released a *Public Notice*, DA 16-38, in the above-captioned proceeding. This Erratum amends the *Public Notice* as indicated below:

1. In the first paragraph, the last sentence is corrected to read as follows:

“The Third Quarter 2015 Inflation Factor for operators using FCC Form 1240 is 1.32%.”

2. In the second paragraph, in the first sentence, replace “1.30%” with “1.32%.”
3. The third and fourth paragraph are corrected to read as follows:

“The inflation adjustment factor is calculated by taking the GNP-PI from the third quarter of 2015 (110.138) and dividing by the GNP-PI for the second quarter of 2015 (109.778). The result of this calculation is converted from a quarterly change measurement factor to an annual change measurement factor by raising it to the fourth power.

Operators calculating the Inflation Factor for a True-Up Period which includes some portion of the Third Quarter of 2015 should enter the inflation factor on the appropriate lines of Worksheet 1 of FCC Form 1240 as “0.0132.” Operators using this factor for calculating the Projected Period Inflation Segment of FCC Form 1240 should enter this number on Line C3 (January, 1996 version), or Line C5 (July, 1996 version), as “1.0132.”

4. In the table, in the last row of the “**Inflation Factor**” column, replace “1.30%” with “1.32%.”
