Wilton, Maine WLTOMERC	Wilton Remote Terminal RT1 P27 Orchard Lane
Wilton, Maine WLTOMERC	Wilton Remote Terminal RT8 P75 Weld Road

Planned Implementation or Retirement Date: December 31, 2016

Description of Foreseeable Impact: These network changes will create the potential for spectral interference on the CO-based ADSL and/or a Digital Design Loop (DDL) loops that share the same binder groups as the RT ADSL within the copper distribution feeder cable past the Feeder Distribution Interface (FDI).

Description of Change: When FairPoint Communications NNE is installing a Digital Line Subscriber Access Multiplexer ('DSLAM') or Litespan to provide Digital Subscriber Line (DSL) service from a Remote Terminal (RT) that is less than 30,000 feet from the Central Office and only when copper feeder is present between the Central Office and RT.

Attachment: Certificate of Service
