Report No. SAT-01213

Friday February 3, 2017

## Policy Branch Information Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined that the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions, and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

---

**SAT-MOD-20161219-00128** E S2669 DIRECTV Enterprises, LLC  
Date Filed: 12/19/2016 14:12:58:88600  
Modification

DIRECTV Enterprises, LLC seeks to modify the authorization for the DIRECTV 9S space station at 101.1° W.L. to: (1) consolidate the call signs for the Direct Broadcast Satellite (DBS) payload and the Ka-band payload, (S2669 and S2689, respectively) so that the spacecraft has one call sign covering both payloads; and (2) extend the license term for the DBS payload, S2669, until December 17, 2021, so that the two payloads on the DIRECTV 9S space station will have the same expiration date.

---

**SAT-MPL-20170108-00002** E S2950 New Skies Satellites B.V.  
Date Filed: 01/08/2017 20:33:40:04300  
Modification to PDR/PPL

New Skies Satellites B.V. seeks to modify its U.S. market access grant for the SES-10 fixed-satellite service space station by specifying the 66.9° W.L. orbital location instead of the 67° W.L. orbital location. New Skies filed its request pursuant to Section 25.117(h)(1) of the Commission's rules and included the certifications set forth under that section. Accordingly, the grant of U.S. market access for SES-10 will be deemed modified to reflect operations at 66.9° W.L. no earlier than 35 days after the date of this public notice (March 10, 2017), without further action by the Commission, unless an objection is filed by March 6, 2017.

**INFORMATIVE**

**SAT-PDR-20161130-00124**

S2987

ABS Global Ltd.

This informative corrects the public notice for ABS Global Ltd., IBFS File No. SAT-PDR-20161130-00124, which appeared in Public Notice, Policy Branch Information, Satellite Space Applications Accepted for Filing, Report No. SAT-01211, dated January 27, 2017. The January 27 Public Notice incorrectly indicates that (1) the ABS-3A TT&C frequencies of 4197.0 MHz and 4194.5 MHz are associated with Earth-to-space communications, when it should be space-to-Earth; and (2) the ABS-3A TT&C frequencies of 6420 MHz and 6425 GHz are associated with space-to-Earth, when it should be Earth-to-space. The corrected text is as follows:

ABS Global Ltd. seeks to add the ABS-3A space station at the 3° W.L. orbital location to the Commission's Permitted Space Station List to provide fixed-satellite service in the 3700-4200 MHz (space-to-Earth), 5925-6426 MHz (Earth-to-space), 10.95-11.2 GHz (space-to-Earth), and 14.0-14.25 GHz (Earth-to-space) frequency bands. The applicant states that it is "authorized to utilize the relevant frequencies at the specified orbital location by the Government of the Russian Federation." Telemetry, tracking and command for ABS-3A at 3° W.L. will be conducted using the following C-band center frequencies: 4197.0 MHz and 4194.5 MHz (space-to-Earth) and 6420 MHz and 6425 MHz (Earth-to-space). ABS Global Ltd. requests waiver of Section 25.210(f) of the Commission's rules, 47 CFR. § 25.210(f), in connection with its market access petition.

This informative does not change the due date for comments to this application, which is February 26, 2017.

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 1-888-835-5322.
