**NOTICE OF UNLICENSED OPERATION**

Case Number: EB-FIELDSCR-17-00023741

On October 24, 2017, Agents from the Miami Office (Miami Office) of the Federal Communications Commission's (FCC's or Commission's) Enforcement Bureau (Bureau) confirmed by direction finding techniques that radio signals on frequency 103.1 MHz were emanating from a residential property on NE 112<sup>th</sup> St. in Miami, Florida. Through investigation, Agents determined that you have been renting this property. The Commission's records show that no license was issued for operation of a broadcast station at this location on 103.1 MHz in Miami, Florida.

Radio stations operating on a range of frequencies,<sup>1</sup> including 103.1 MHz, must be licensed by the FCC pursuant to Section 301 of the Communications Act of 1934, as amended (Act).<sup>2</sup> The only exception to this licensing requirement is for certain transmitters using or operating at a power level that complies with the standards established in Part 15 of the Commission's rules.<sup>3</sup> On October 24, 2017, the field strength of the signal on frequency 103.1 MHz exceeded the maximum permitted level of 250 microvolts per meter ( $\mu\text{V}/\text{m}$ ) at 3 meters for non-licensed devices. Thus, this station is operating in violation of Section 301 of the Act.<sup>4</sup>

You are hereby warned that operation of radio transmitting equipment without a valid radio station authorization constitutes a violation of the Federal laws cited above and could subject the operator to severe penalties, including, but not limited to, substantial monetary fines, *in rem* arrest action against the offending radio equipment, and criminal sanctions including imprisonment.<sup>5</sup>

**UNLICENSED OPERATION OF THIS RADIO STATION MUST BE DISCONTINUED IMMEDIATELY.**
