**Report No. SAT-01323**

**Friday June 15, 2018**

## **Satellite Policy Branch Information Space Station Applications Accepted for Filing**

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined that the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions, and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

**SAT-AMD-20180410-00026** E S3016 Intelsat License LLC  
Date Filed: 04/10/2018 16:23:56:59000  
Amendment

Intelsat License LLC seeks to amend its pending application, IBFS File No. SAT-LOA-20170525-00079, to construct, deploy, and operate a C/Ku/Ka-band satellite, to be known as Galaxy 30 (formerly known as Galaxy 14R), at the 125.0° W.L. orbital location. Intelsat proposes to add additional Ku- and Ka-band frequencies, remove certain Ka-band frequencies, and add a Wide Area Augmentation System (WAAS) payload. Specifically, Intelsat requests to (1) add the Ku-band frequency bands of 10.7-10.95 GHz (space-to-Earth), 11.2-11.45 GHz (space-to-Earth), and 12.75-13.25 GHz (Earth-to-space); (2) add the Ka-band frequency bands of 19.3-19.4 GHz and 19.6-19.7 GHz (space-to-Earth); (3) remove the 18.8-19.2 GHz and 28.6-29.0 GHz frequency bands; and (4) seek authority to provide radio navigation satellite service (RNSS) using the following WAAS frequencies: 1165.45-1187.45 MHz, 1564.42-1586.42 MHz, 6597.58-6619.58 MHz, and 6648.73-6670.73 MHz. Intelsat requests a limited waiver of Section 2.106, Footnote NG52 of the Table of Frequency Allocations, and removes two of its earlier requests for waiver of the Table of Frequency Allocations.

---
