Report No. SAT-01329

Friday July 13, 2018

Satellite Policy Branch Information Space Station Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined that the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions, and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

CORRECTIONS

SAT-LOA-20161115-00121 S2986 Theia Holdings A, Inc.

The Satellite Division is reissuing the public notice for this application to correct the frequency bands accepted for filing, which were incorrectly listed in Public Notice SAT-01325 (June 29, 2018). The correct text reads as follows:

In Public Notice DA 17-524, the application of Theia Holdings A, Inc. to operate a non-geostationary, fixed-satellite service system was accepted for filing in part and deferred in part. An acceptability determination was deferred with respect to Theia's request to operate in the 19.3-19.6 GHz and 29.1-29.5 GHz bands because of potential conflicts with Nos. 5.523B and 5.535A of the ITU Radio Regulations. Footnote 5.523B, however, applies only to the uplink direction in the 19.3-19.6 GHz band and not to the downlink operations requested by Theia. Accordingly, we accept for filing Theia's request to operate in the 19.3-19.4 GHz band; we defer an acceptability determination on Theia's request to operate in the 19.4-19.6 GHz band because it conflicts with footnote NG166 of the U.S. Table of Frequency Allocations, 47 CFR § 2.106, and we continue to defer its request to operate in the 29.1-29.5 GHz band due to inconsistency with No. 5.535A of the ITU Radio Regulations. Additionally, we accept for filing Theia's request to operate in the 12.2-12.7 GHz frequency band.

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 1-888-835-5322.
