**NOTICE OF UNLICENSED OPERATION**

Case Number: EB-FIELDSCR-18-  
00027313

On July 6, 2018, Agents from the Miami Office of the Federal Communications Commission's (Commission's) Enforcement Bureau confirmed by direction finding techniques that radio signals on frequency 98.5 MHz were emanating from your residence on Northwest 42<sup>nd</sup> Avenue in Lauderhill, Florida. Florida property records indicate that you are also the owner of this property. The Commission's records show that no license was issued for operation of a radio station at this location on 98.5 MHz in Lauderhill, Florida.

Radio stations operating on a range of frequencies,<sup>1</sup> including 98.5 MHz, must be licensed by the FCC pursuant to Section 301 of the Communications Act of 1934, as amended (Act).<sup>2</sup> The only exception to this licensing requirement is for certain transmitters using or operating at a power level that complies with the standards established in Part 15 of the Commission's rules.<sup>3</sup> On July 6, 2018, the Agents found that the station at your residence was operating at a power level that exceeds the level permitted by Part 15. The field strength of the signal on frequency 98.5 MHz was measured at levels exceeding the maximum permitted level of 250 microvolts per meter ( $\mu\text{V}/\text{m}$ ) at 3 meters for non-licensed devices. Thus, this station is operating in violation of Section 301 of the Act.<sup>4</sup>

**UNLICENSED OPERATION OF THIS RADIO STATION MUST BE DISCONTINUED IMMEDIATELY AND MUST NOT RESUME.**
