On August 14, 2018, Agents from the Miami Office (Miami Office) of the Federal Communications Commission's (FCC's or Commission's) Enforcement Bureau (Bureau) investigated complaints of an unlicensed FM station operating on 91.7 MHz in Delray Beach, Florida. The Agents confirmed by direction finding techniques that radio signals on frequency 91.7 MHz were emanating from a residential property on Angler Dr., Delray Beach, Florida. August 28, 2018, the field strength of the signal on frequency 95.1 MHz exceeded the maximum permitted level of 250 $\mu\text{V}/\text{m}$ at 3 meters for non-licensed devices. Thus, this station is operating in violation of Section 301 of the Act.⁴

You are hereby warned that operation of radio transmitting equipment without a valid radio station authorization constitutes a violation of the Federal laws cited above and could subject the operator to severe penalties, including, but not limited to, substantial monetary fines, *in rem* arrest action against the offending radio equipment, and criminal sanctions including imprisonment.⁵
