NOTICE OF UNLICENSED OPERATION

Case Number: EB-FIELDSCR-18-00026568

On August 27, 2018, Agent from the Dallas Office (Dallas Office) of the Federal Communications Commission's (FCC's or Commission's) Enforcement Bureau (Bureau) confirmed by direction finding techniques that radio signals on frequency 95.9 MHz were emanating from a tree in front of residential property on 10th Street in Port Arthur, Texas. Public records list you as the property owner. The Commission's records show that no license was issued for operation of a broadcast station at this location on 95.9 MHz in Port Arthur, Texas

Radio stations operating on a range of frequencies,¹ including 95.9 MHz, must be licensed by the FCC pursuant to Section 301 of the Communications Act of 1934, as amended (Act).² The only exception to this licensing requirement is for certain transmitters using or operating at a power level or mode of operation that complies with the standards established in Part 15 of the Commission's rules.³ On August 27, 2018, the field strength of the signal on frequency 95.9 MHz exceeded the maximum permitted level of 250 microvolts per meter ($\mu\text{V}/\text{m}$) at 3 meters for non-licensed devices operating in the band 30-88 MHz.⁴ Thus, this station is operating in violation of Section 301 of the Act.⁵

You are hereby warned that operation of radio transmitting equipment without a valid radio station authorization constitutes a violation of the Federal laws cited above and may subject the operator to severe penalties, including, but not limited to, substantial monetary fines, *in rem* arrest action against the offending radio equipment, and criminal sanctions, including imprisonment.⁶

⁵ 47 U.S.C. § 301.

⁶ *See* 47 U.S.C. §§ 401, 501, 503 and 510.

UNLICENSED OPERATION OF THIS RADIO STATION MUST BE DISCONTINUED IMMEDIATELY.

You have ten (10) days from the date of this notice to respond with any evidence that you have authority to operate granted by the FCC.
