For Immediate Release

**STATEMENT OF COMMISSIONER JESSICA ROSENWORCEL ON
PHASE 1 TEST REPORT OF PROTOTYPE U-N-II-4 DEVICES**

WASHINGTON, October 29, 2018:

“Nearly two years after the deadline for completing a three-phase test plan to determine whether auto safety and Wi-Fi can share the 5.9 GHz band, this agency is releasing the results of its lab testing. These results are long overdue. But we need to do more than just make our work public. We need to start a rulemaking to take a fresh look at this band and its real possibilities.”
