

Congress of the United States
Washington, DC 20515

929

December 10, 2018

Mr. Ajit Pai
Chairman
Federal Communications Commission
445 Twelfth Street, SW
Washington, DC 20554

Dear Chairman Pai:

In September of last year, we wrote, as Co-Chairs of the Congressional Deaf Caucus, to encourage the Commission to issue an NPRM regarding a petition for rulemaking to change the contribution methodology for the TRS Fund (CG Docket No. 03-123) that was widely supported by the Deaf and Hard of Hearing communities. In June of this year, the FCC issued a Further Notice of Proposed Rulemaking (CG Docket Nos 13-24, 03-123) in order to, among other things, address the issues underlying that petition and shore up that fund. We applaud your efforts in taking on such an important matter.

As you're aware, formal comments and reply comments have now been filed in that docket, and we are encouraged that once again the Deaf and Hard of Hearing communities have weighed-in heavily in favor of changing that contribution methodology to allow intrastate TRS revenue to be included along with interstate revenue to size contributions to the TRS fund.¹ We were pleased to see considerable support in the record for such a solution, including continuing support from the Deaf community.

We encourage you to ensure that FCC rules and policies address the needs of the Deaf community and that the TRS Fund contribution methodology strengthens the fund and protects it from future erosion or budget gamesmanship.

Sincerely,

Kevin Yoder
Member of Congress

Mark Takano
Member of Congress
