Released: January 31, 2019

By the Regional Director, Region One, Enforcement Bureau:

1. This is a Notice of Violation (Notice) issued pursuant to Section 1.89 of the Commission’s rules (Rules)¹ to MTS Inc., registrant of antenna structure ASR# 1011314 in Augusta, Illinois. Pursuant to Section 1.89(a) of the Rules, issuance of this Notice does not preclude the Enforcement Bureau from further action if warranted, including issuing a Notice of Apparent Liability for Forfeiture for the violations noted herein.²

2. On August 22, 2018, an Agent of the Enforcement Bureau’s Chicago Office observed the following violations:

- a. 47 CFR § 17.23: “...each antenna structure must be painted and lighted in accordance with any painting and lighting requirements prescribed on the antenna structure's registration, or in accordance with any other specifications provided by the Commission.” At the time of inspection, which was after sunset and before dawn, the Agent observed that the top-level obstruction light on the antenna structure was not flashing but instead exhibited a red and white steady-burning light. In addition, the required flashing red obstruction lighting at midpoint of the antenna structure and the required red steady-burning obstruction lighting at the ¼ and ¾ levels of the structure were extinguished.

- b. 47 CFR § 17.48(a): “The owner of any antenna structure which is registered with the Commission and has been assigned lighting specifications referenced in this part ...[s]hall report immediately to the FAA, by means acceptable to the FAA, any observed or otherwise known extinguishment or improper functioning of any top steady burning light or any flashing obstruction light, regardless of its position on

the antenna structure, not corrected within 30 minutes... ” On August 23, 2018, the Agent contacted the Federal Aviation Administration (FAA) to notify them of the lighting outage and to request that a Notice of Airman (NOTAM) be issued. The FAA issued NOTAM # 08-497. At the time of the inspection, MTS Inc. did not know that the obstruction lighting was extinguished, nor had they reported the obstruction light outages to the FAA.

- c. 47 C.F.R. § 17.57: “The owner of an antenna structure for which an Antenna Structure Registration Number has been obtained must notify the Commission within 5 days of completion of construction (FCC Form 854-R) and/or dismantlement (FCC Form 854). The owner must also notify the Commission within 5 days of any change in structure height or change in ownership information (FCC Form 854).” MTS Inc. failed to notify the Commission of its change in address or phone number to update the ownership information on the antenna structure registration.
